Dear Prospective Food Vendor,

Welcome to the 2019 season. You've received this mailing because you have been a food vendor in the past, have expressed an interest in becoming one or because we've enjoyed your products and would like you to join us. Please find the attached vendor information sheet, application, and Loudoun County Temporary Food Permit Application.

The Bluemont Fair is a village-wide, two-day country fair with an estimated attendance of 7,000 – 10,000 visitors. This year will be our 50th year. It's always held on the third weekend of September, which falls on September 21st and 22nd this year.

The vendor categories this year are:

- Food Concessionaire: Products that are prepared on site for consumption on-site.
- Specialty Foods: Reduced fees for vendors with a limited product line that are not intended to be consumed on-site.

The muddy conditions in "Mitchell's Field" have continued through out the past winter and The Bluemont Community Center has upgraded their septic field. Both of these factors may require us to make changes in our vending areas. We will do everything we can to accommodate space requests but please be aware that some changes may be required.

Again, we will offer Interactive or Educational Activity Vendor Discounts to vendors who include a hands-on activity or demonstration at their space. You may receive a discount on vendor fees or free fair passes for your group. We're open to all ideas!

Vendor application acceptance will be based on uniqueness of foods offered, with locally sourced ingredients preferred, and the timeliness of our receipt of your completed application package. Last year we had to turn vendors away, so please be aware that the deadline is July 1, 2019.

Please read the information sheet and application. If you have questions, feel free to e-mail us at Flaco20135@gmail.com or call us at 540-338-2134 (no texts please).

Many thanks,

Rachel Wetherill and Betty Potter
